As the title suggests, can one of you tech savvy pill swallowers create a start-to-finish PDF file of the TRP side bar?

I often find myself travelling (airplanes, trains, foreign countries) or somewhere else without service and would love to be able to go back over the basics in my spare time. I cant always carry books/kindle with me but 9/10 times have my phone. Something I could drop on my SD card would be perfect. I'm a pen and paper, note taker type of learner and it would be extremely helpful.

Looks like it was updated 8/18/2015 though FYI. Better than nothing.

Good thing human nature doesn't change in the course of two years.

But our understanding of it could certainly evolve. 2 years isn't a lot of time though.

This PDF is fucking awesome. I am putting this in my folder of programming pdfs I have acquired over the years. Sure, some of you may think it is not a good fit for this folder, but this pdf is about programming myself and possibly the women around me. Unfortunately, this is not something even Java can help me with...

Psychocist • 7 points • 21 June, 2018 09:45 PM

I have a feeling you want me to ask about your programming. How are you finding it?

NotebookAnswer • 6 points • 21 June, 2018 10:24 PM

Haha I like you

thesquarerootof1 • 2 points • 21 June, 2018 11:02 PM

Haha. I am ok with it. I have been programming for a little over a year now and I am a compE student. I just have this huge folder of pdfs for c++, java, you name it, and this red pill pdf looks really professional, like a programming pdf. Haha

As a beginner should I start reading that trp book or standard sidebar on /r trp. I ask that because I looked at the table of content of that book and it seems to have a lot more articles than the standard sidebar.

cenie • 4 points • 21 June, 2018 08:40 PM

Read it all, doesn't matter where you start. Just start.

What's the difference between the handbook and sidebar?

[deleted] • 1 point • 26 July, 2018 11:49 PM

One's on the side, the other's on the hand, of course.

The sidebar is **required reading**.

The handbook consists of **top posts**.

The TRP sidebar is also available on <http://TRP.red> but the red pill handbook site contains the same PDF and more.

Why don't you look up how to do it, lazy fucktard ;)

V-Vanguard • -4 points • 21 June, 2018 06:27 PM

Because you seems to know how to do it smartass

it\_takes\_the\_redpill • 3 points • 21 June, 2018 08:20 PM

I know how because sometime years ago I took the 2 minutes it takes to Google how to. It's something so low effort that almost anybody can do it regardless of background. If they think it will contribute to the community that they care about, they should do it themselves and share it to help others.

I have a detailed theory post I'm working on for the community. I consider that a better use of my time than fulfilling the whims of someone who is just being lazy.
