

Guy's GF wants to go on holiday vacations with another guy; BF blows up Quora

January 2, 2017 | 64 upvotes | by [danmtz96](#)

This is currently trending on Quora: 'My girlfriend is going out with a male friend of hers for 2 days on a small vacation. It is just the two of them. Should I be worried? She tells me nothing will happen. But they are going to the same place where we made out and had a great time. There will also be drinking over there. I told her how I feel but she tells me not to worry and that he's just a dear friend and nothing of that sort will happen.'

They're going to fuck, unless the guy's beta. I wouldn't be surprised if they went drinking and she fucked a few more guys. AWALT.

Guy in the comments has it spot on:

Here's me in your place: I can't stop her from going, I don't own her. But, no, I'm not the least bit worried about her cheating on me. Because she can't cheat on me if she's not my girlfriend anymore. And she's not going to be if she does anything other than immediately cancel this trip and never suggest anything like it again. In fact, I'm really leaning towards "we are finished right now" no matter what she does.

If you really love and respect someone, you don't do something like go on a vacation with another person you could cheat with. And you sure as hell don't insist on doing it when your partner has said they are uncomfortable with it. The easiest way to stay faithful to someone is to just avoid situations where you are going to have temptation and opportunity. She's doing the exact opposite. This ain't rocket science, people.

This shows a serious lack of respect for your feelings. For YOU. I would really think hard about whether you want to continue in this relationship at all.

Flip genders and see all women go.... Crazy

PantsonFire1234 • 13 points • 3 January, 2017 04:48 AM

Which is hilarious since it should only increase their attraction if their man is able to pull other women. They lose almost zero commitment when their boyfriends plates some sidechick. Flip it around and your girlfriend cheating just verifies you've got yourself a loose slut. She takes the sex she could be giving to you and gives it to some other dude.

That's like me having a girlfriend and then taking on a second girlfriend and giving her all the attention for a week while ignoring my actual girlfriend.

That's *literally* what women are doing right now.

stephcurrythrowaway • 11 points • 3 January, 2017 04:51 AM

I give up on society. Just gonna make money. Do my religious stuff and help the less fortunate.

PantsonFire1234 • 9 points • 3 January, 2017 05:00 AM

Just adapt, give women the rake because they reap what they sow. Enjoy yourself twice as much because you still get sex and fun times with maytes. They get fuck all because no one wants to stick around.

The number one killer instinct trait isn't size, aggressiveness or intelligence. It's adaptability, those who can adapt to any given situation will pass on their genes and survive.

Humans can adapt to any scenario even this one.

stephcurrythrowaway • 4 points • 3 January, 2017 05:20 AM

Yep. I truly believe women who are hypergamous will die unhappy and unfulfilled.

zboo1h • 3 points • 3 January, 2017 07:28 PM

Realizing this has drastically improved my outlook when it comes to women, actually. In my thoroughly bluepilled beta days I would be depressed about not getting as much sex as I wanted, not getting as much female attention, and that made me unhappy. Truth was I was unhappy with myself for other reasons, and after working on myself I was no longer unhappy. An ancillary benefit was that pussy was suddenly making itself available.

These women will never improve, only decline. They will absolutely die unhappy and unfulfilled, even if some beta schlub picks up their disgusting pieces.

Rejoice in the schadenfreude.

stephcurrythrowaway • 2 points • 3 January, 2017 07:53 PM

Yep. I'd like to think 80 percent of western women think in hypergamous sense which is why pretty much AWALT exists. The thing is studies are taken and shown that men get happier as they get older and women don't. Women are going their own way with careers but don't feel much satisfaction. More men do. I feel like there's an innate drive to work on ourselves and be builders and creators. I don't know maybe it's just jumbled speculation I'm thinking of.

PantsonFire1234 • 0 points • 3 January, 2017 01:07 PM

Those who play the game stupid a.k.a. Beta women, they will.

StbRPG • 8 points • 3 January, 2017 02:44 AM

Red Pill truth.

beginner_ • 10 points • 3 January, 2017 08:06 AM

In fact, I'm really leaning towards "we are finished right now" no matter what she does.

Exactly. Even the idea of such a trip and scheduling it is enough to warrant a break-up. Even if she then cancels it when you object. Women aren't stupid. If she is in to you she wouldn't even think about such a trip.

Toussant • 1 point • 3 January, 2017 10:40 AM

I gave the guy the benefit of the doubt and assumed the trip was planned before they got together. I've seen ppl do that for specific activities (doing a race together, ie). But if planned after they got together, shouldn't even be a question. Pretty clear way to end it.

desno • 8 points • 3 January, 2017 03:34 AM

I read the article and copy & pasted that and sent it before reading this comment. It really is a great example of how you talk RP in real life situations

Of course, it's Quora. I couldn't stand reading those answers. I would've jumped in the screen and choke their avatar.

How did you find out?

good to see most of the top comments now are actually reasonable instead of "you should trust bro it's 2016"

Quora is full of girlymen.

stemgrad314 • 2 points • 4 January, 2017 12:57 AM

Top commenter said it right. He had a clear train of thought that he presented, and I didn't bother reading the rest because he was 100% right.

Beta-ness?

But that's easy, I want to believe there is more to it! There should be more to this cuckoldry, otherwise it is just self inflicted torture!

PantsonFire1234 • 31 points • 3 January, 2017 04:46 AM

It just baffles me that women even try this shit. Is this how far we've come that women openly try and pull of their hypergamy? What does it say about women that they have boyfriends whom are so clueless and autistic they feel comfortable acting like this?

What I think is that nothing can save this civilization of ours besides a civil war and allot of blood. This entire generation is ruined beyond repair. The worst part is that this scenario even sparks a discussion. Guy and girl are going on a vacation together. What do you think is gonna happen?

If you're not reading anonymous conservative's r/K blog, you need to be.

PantsonFire1234 • 1 point • 3 January, 2017 05:44 PM

Damn, that's one of the best pieces I've read in a while. Thanks. With every new bit of evidence the true divide between those Beta and those Alpha really begins to show.

Just like the article states a K selective society will produce superior and faster evolving organisms compared to the R selective one in exchange for the harsher environment they find themselves in.

This falls in line with the evolving notion that both men and women in the west are both showing Beta traits, not just men. It's not simply AF/BB, it's a divergence from the norm humans had to operate from for thousands of years.

Either the K selective society keeps destroying the R selective one or the R selective one has to begin showing genetic anomalies where people don't degenerate despite being prosperous. I think the one trait that is required in this evolutionary step is high intelligence. You can see this in the psychopath mutation in city populations. Even though the psychopath is raised in a lax environment he will show competitive traits.

lanky32 • 12 points • 3 January, 2017 03:53 AM*

I actually commented on this post on Quora.

The girl and her friend are going to fuck, that's why they are going alone to a romantic spot.

That is what is going to happen, its crystal clear.

There is no 'maybe, she won't cheat afterall'. Yes she will. She has decided that she will fuck the other guy.

That is pretty much there is to it.

There is some good advice on the thread, while some others are so absolutely stupid.

Some females and manginas blame the BF that he does not trust his gf enough and therefore he is at fault.

LOL, what?

AFPJ • 7 points • 3 January, 2017 05:19 AM

I think homeboy should start fucking new chick(s) in their pad the day his uninformed ex leaves, and notify her when she returns that he's already got a new GF & is seeing [x] other chicks, and thus she can get the fuck out of his life.

srqrox • 3 points • 3 January, 2017 03:17 PM

If he actually could get girls to fuck whenever he wanted, he wouldn't be posting this shit on Quora.

jb_trp • 1 point • 3 January, 2017 05:42 PM

I like this option. Take the time while they're gone to pack up their stuff, fire up Tinder, and start banging at least 10 women.

Don't even respond when she's on vacation to *any* text or calls. Let that fuck with her head a little bit and interfere with her stupid vacation. Then when she get home, drop the bomb, give her her stuff, and never speak to her again.

Herdseengineers • 8 points • 3 January, 2017 05:47 AM

Yeah, the dude needs to kick this girl to the curb. Just seriously suggesting it, and actually making real travel plans to do it, that's enough to go radio silent on her, let her go, and then when she comes back, let her wonder why he won't respond to her.

lanky32 • 1 point • 3 January, 2017 07:35 AM

Yup. that's what exactly I would do.

There's too many disgusting things I've seen in the past couple days: 1. The ending of Netflix's The OA 2.

Mariah Carey trying to stay relevant with a NYE "sing slip." 3. This.

PantsonFire1234 • 18 points • 3 January, 2017 04:54 AM

Two weeks ago I was attending a party where a friend of mine had invited a girl whom I had fucked last year. She had managed to get a boyfriend in the meanwhile. We all joked about how she would be down to bang again.

In the end she ended up grinding on my lap, begging to go home with me, drunkingly offering FwB if I wasn't interpreted in a relationship. When this didn't work she tried making me jealous in a vain last minute hail mary attempt. Dancing with a mayte of mine, walking past a couple of the guys grinding her ass against them all. Came back to me in the rotation, gave me an ultimatum. I declined. She then puked up the entire office after she drank the whole bosses cabinet. Ended up going home with some fat guy that worked there because she just *had* to cheat even if it wasn't with me.

During Christmas she updated her WhatsApp profile picture of that of her boyfriend and parents sitting like one big happy family next to a danky Christmas tree. I was both in tears of laughter and incredibly disgusted at the degeneracy. Women can be disgusting.

srqrox • 2 points • 3 January, 2017 03:11 PM*

I had this plate, we lasted for like two years or shit, she was cute af but way too dumb.

She got married.

To. A. Very. Close. Friend. Of. Mine.

Initially, I was surprised how my friend could marry a girl he knew I used to fuck up and down but concluded that maybe it was his thing or whatever.

I moved to another city due to studies and job, came back after two years and we are all in this party where plate and her husband, the buddy, are also invited.

Tipsy, she joked about sucking my dick that night in front of a number of people including her husband; in a secluded corner, actually did the deed. Also swallowed.

Her husband came, merely a minute or two later, saw her on her knees with me adjusting my cock, said what the hell was she doing and they both left immediately.

It's been 3 years, they are still happily married.

Women are bad, men are worse with not an ounce of dignity left.

PantsonFire1234 • 1 point • 3 January, 2017 03:20 PM

There are no words, I know AF/BB and all but it just boggles my mind why a woman would do that. If she's doing shit like this it means she isn't attracted to her husband. If she's not even attracted to him, then why is she with the guy.

Imagine being LTR'd to a fat girl you constantly cheat on and never fuck. That's what this is. It's pure hell and these women are purposefully doing it. I can only conclude that there are some mentally ill people walking around in this world.

srqrox • 1 point • 3 January, 2017 04:22 PM

There is no other explanation lol.

[deleted] • 1 point • 3 January, 2017 08:17 PM

What the fuck? I'm not surprised about women who cheat. I'm more surprised a dude can be so cucked he is still in a relationship with this chick. I mean the guy has to know she did this.

cuteman • 0 points • 3 January, 2017 04:23 AM

This whole modern thing of totally trusting folks by default is dumb ass hell. Plus no one really does that.

If a guy and a girl are single and they go somewhere alone together, hang out, get to know each other better, see what happens, deepen their relationship, etc., isn't that called dating?

The fact that this girl has a boyfriend doesn't make a romantic get-away with another man any less of a date.

This guy's girl is going on a date with another man, and she apparently expects him to sit at home waiting for her, hoping it doesn't work out.
