

Rising 'anti hate' sub

April 11, 2020 | 38 upvotes | by [empatheticapathetic](#)

A new sub has popped up from the ashes of IncelTears, called idiottears.

They claim to be against racism, sexism, any intolerance etc.

I personally think this is a good opportunity to show some new people who are against intolerance the struggles men face with regular posting of men's rights content on there. We can gain more attention for our issues...or see what happens in general...

Interesting, these are probably the same people and they just re-named it if it's got tons of users all of a sudden this is why I was a bit sceptical about them actually having 'shut down'.

They actually shut down a hate sub that was attacking incels?

I'm hoping they get rid of r/FemaleDatingStrategy as it's an abhorrent sub that's simply about slandering men

One of their own mods went rogue and did it. I guess they finally developed a conscience.

So it wasn't reddit itself. I hoped they had opened their eyes or something.

It's still a good thing though. I'm not saying we need to pitty incels or anything but making fun of them won't help anything.

Making fun of any group is bullying and discrimination.

Is Incel tears that bad? I've been there a lot and haven't seen anything too bad.

Men's rights what a fucking joke . I've never had my rights infringed on as a man . And everyone I know that thinks they did (bad divorce , bad custody , child support , didn't get a promotion because a woman did etc etc) we're objectively denying the reality of how they ended up in their position . Most of them hate filled misogynistic assholes and racists .

Do some men get the short end of the stick sure they do , guess what so do some women . That's life it isn't fair , there is no conspiracy against men in modern culture . The idea that there is is absurd .
