Don't worry, I'm sure she'll get a solid 18 months probation for this.

I wonder why he was cheating, she seems like a perfectly reasonable woman...

SimpleQuantum • 11 points • 15 August, 2019 03:36 AM

Careful, some people might actually take that seriously (because sadly this is reddit)

why do women seem to love emasculating men? it just seems in general they enjoy it, like they feel a sense of empowerment from it. sort of veering off this specific story

orewordlaugh • 5 points • 15 August, 2019 06:58 AM

I know this is extremely knit-picky but I feel like the pink blanket they put over him is salt on the wound.

jaesharp • 3 points • 15 August, 2019 04:04 PM

Oof, I didn't even notice that. I hope to fucking hell they're out of their mind on medication and woke up with a police officer to tell them the person who did this to them is in prison, a grief counsellor to talk about it with and plenty of tranquilisers :/

5th_Law_of_Robotics • 11 points • 15 August, 2019 11:16 AM

Why is it these things are almost always done by women?

Clearly we need to discuss toxic femininity and what society can do to fix women.

How did she do it? Like did she use a knife or scissors? How did he just allow it? Im pretty sure it took her a few hits at it. Maybe he was drunk?

symphunny • 4 points • 15 August, 2019 01:07 AM

So how is going to pee? This can't be the first time someone has done this. This is actually really concerning because I feel like there will be a lot of copycats

[deleted] • 7 points • 15 August, 2019 02:32 AM

He will have to sit down to pee. The muscle that controls urine release is in the lower abdomen.

symphunny • 3 points • 15 August, 2019 03:32 AM

Does it cause him any pain? That does seem a lot worse than I expected though thankfully.

[deleted] • 4 points • 15 August, 2019 10:30 AM

I have no idea what pain a person will be in after what happened to him. I imagine the physical pain will subside but the mental pain of having his masculinity and much of his identity and legacy violently cut off will linger for the rest of his life. It's the sort of thing that can drive a man to suicide.

gazza1711 • 10 points • 15 August, 2019 04:32 AM

Yea I think we are going to start seeing more and more castrations etc by women especially if the punishment is mild which it usually is as the world views stories of men having their junk cut off as amusing and there is little real sympathy because he was a man . It's now been ingrained for so long that women are always the victim so they must have had a good reason for such an extreme act . Now with all this crap about our toxic masculinity the only way women can see to change that is to neuter a male. God help men if feminists took over power they'd have all men eventually castrated

symphunny • 6 points • 15 August, 2019 04:34 AM

Yeah it's really concerning for me because there will definitely be more of these and I feel like domestic violence from girlfriends or wives could transfer into cutting off the mans part

gazza1711 • 4 points • 15 August, 2019 04:54 AM

It will as men's genitals are a mans most vulnerable part and women know men treasure their genitals and think we are ruled by our dicks . Sadly even men laugh and joke when they read or hear about these attacks . So as more and more women become radicalised feminists then the more frequent penis and balls will be getting chopped off

symphunny • 4 points • 15 August, 2019 04:55 AM

Exactly

gazza1711 • 3 points • 15 August, 2019 05:02 AM

Yea it's scary that you could go to bed be asleep and be woken to find your girlfriend or wife had chopped your balls off and flushed them
