

"Guys we fucked" podcast?

1 upvotes | 29 April, 2017 | by empatheticapathetic

Just seen this podcast advertised on my Howl podcast app. Anyone ever heard of this before or listened to this?

Simply wonder if there is anything to learn from the stories told in this? Rationalisations straight from the hamster or redpill truths. Or am I wasting my time here.

Listen to the DJ whoo kid episode. If you ever wondered what life actually looks like for rappers, it's pancaking in hotel rooms

frankbond999 • 1 point • 29 April, 2017 06:22 PM

What is pancaking?

legitshitonly • 4 points • 29 April, 2017 06:33 PM

Multiple girls stacked vertically

We call this "stack em and pack em". Thank you. Pancaking sounds much nicer.

Also the juices flow downward. Just like a stack of jacks

LordThunderbolt • 1 point • 30 April, 2017 03:39 AM

Nah I don't listen to podcasts

legitshitonly • 1 point • 30 April, 2017 05:03 AM

Hopefully you mean you're unfamiliar with how podcasts work but thanks for looking up for me and compiling in a neat order what information was already in the thread

And not you don't listen to podcasts as a rule and you're going to let information pass you by just because of the medium it's delivered

I can't tell which it is

LordThunderbolt • 1 point • 30 April, 2017 05:51 AM

Dawg I just don't listen to fucking podcasts. It never interested me. Drink bleach if you're mad.

legitshitonly • 1 point • 30 April, 2017 03:20 PM

You a big drinker over there?

legitshitonly • 1 point • 29 April, 2017 05:58 PM

And it got on my nerves and wasn't worth it like 7 min into the next one I tried listening too btw

empatheticapathetic[S] • 1 point • 29 April, 2017 06:01 PM

I just tried a snippet of an episode and it wasn't that bad. There wasn't any sort of annoying intense BP narrative but it was just two chicks chatting shit. And of course they're going to give their opinions supporting the female point of view. But there probably are some gems here and there.

Looks more just like a 'taboo' vehicle for these comedians to break into the spotlight while lacking any major content.

legitshitonly • 1 point • 29 April, 2017 06:14 PM

Yeah very few female comedians I find good at all. I'm telling you though listen to the whoo kid episode. It's a gut check

empatheticapathetic[S] • 1 point • 29 April, 2017 06:20 PM

A gut check? My daily reminder to drop pedestalisaton you mean?

legitshitonly • 1 point • 29 April, 2017 06:35 PM

As we know the red pill offers some harsh realities. That episode confirmed a lot on a nuclear level. I gained from it though

Cool. Cheers for the recommendation.
