

I made a pdf containing asktrp's sidebar.

Not a question, I know... but I thought it would come in handy. The fact that the main subreddit has been quarantined makes me think that this one also isn't very safe, so here it is: [The ASKTRP Sidebar](#). Here's the [.docx file](#) if corrections are needed or if anyone wants to make .epub and/or .mobi files (I don't know how to do it).

Eventually, it might be added in [here](#).

EDIT: As [u/rudolf323](#) said, an index was needed. So, I added page numbers, an index and additional material*. The links above have been updated with the new links.

(*namely, the "Plate Theory" series by Rollo Tomassi. I didn't originally add it in the file because it's published on a blog, not on reddit, so I didn't fear for its removal. But I felt it was too important to set aside. Enjoy your almost-six-hundred pages beast!)

Is there something similar for trp's sidebar?

[deleted] • 4 points • 1 October, 2018 03:08 PM

Yes, in the website I linked at the end of the post.

This needs an index on the 2nd page.

I updated the links with an improved edition: I added page numbers, an index and additional material. More info in the original post.

In term on content, how does it compare to the one in there spill handbook.com?

[deleted] • 6 points • 1 October, 2018 02:12 PM

To be honest, I think it's as important as the main subreddit's sidebar. However, the last two sections (CorporateLand and OmLaLa's threads) are more collections than strictly required reading. Read everything nonetheless.

PDF file wouldn't open on my Android 8.0 Samsung Note phone. DOCX worked just fine however. Thank you for putting this together in light of the subreddit ban.

ivanmaher • 2 points • 1 October, 2018 01:58 PM

what is happening to the main trp?

[deleted] • 10 points • 1 October, 2018 02:17 PM

It's in quarantine. Its contents are still accessible (you just have to confirm you're eighteen years old or more), but, almost certainly, in a short time it will be banned.

Sero-Flex • 4 points • 1 October, 2018 08:48 PM

Whenever I search it it says I don't have access to it or it's been removed, but I was subscribed and everything. Do you know how I can access the sidebar?

Terminal-Psychosis • 6 points • 1 October, 2018 10:45 PM

You need to go there on the desktop version of the site to accept the quarantine warning.

XsatanSTacoX • 3 points • 1 October, 2018 03:47 PM

[deleted] • 2 points • 2 October, 2018 03:40 AM

Can I ask how you fixed it? I'm getting an "invalid format" error message.

Jailhouserdpilled93 • 1 point • 1 October, 2018 06:11 PM
