Hello Lucio!

[redacted]

The course you have created and are continuing to expand on is by far the best self-help I've ever come across, and it for sure has changed my life for the better.

Hello,

First of all I want to thank you for such a great course! I've never seen before something so complete, versatile and deep in one program. This course definitely answered many of my life questions. I'm very glad I found it. Thank you very much!

Public Reviews

I could go on and on with emails.

But every time I saw a list of email testimonials on some program I always had to wonder.

So instead of a list of emails, these are public testimonials.

- So good it gets you hooked:

Thank you very much! I'm hooked on your "Social Power" course, this is just so good!

[You can read this one online here.](#)

- Two lessons of Social Power better than a whole course on Udemy:

Last note, Udemey released some courses for free as a COVID-19 special sale. I decided to take "How to speak to anyone & be fearless - in less than 55 min" by Ricardo Mendoza. This course has 59,220 students and has still been able to maintain a 4.2-star rating which I found quite impressive. I also liked his course description: Learn to quickly connect with crowds of strangers, be better on dates or ace that job interview.

Long story short, I got more value from two lessons in Lucio's course than I got from the entire Udemey course. Mendoza's course was great, but it was only great for people who hadn't already taken Lucio's Social Power course and it just happened that I have (albeit I've only completed Module 1).

You can read that one [here](#).

- Social Power can help you turn over a new leaf:

in general for far too long, and who still faces that vice now and then, your lessons on attention, assertiveness, and dominance have been very helpful indeed. After months of struggle, I am finally seeing results and a light at the end of the tunnel. I know, that if I keep going, I will get the respect and security I desire.

- Using Social Power to ace casting jobs:

Before the coronavirus outbreak, I booked a role on season two of *Murder in the Family*. There was a scene where most of my acting had to be nonverbal because, in post-production, it was supposed to be narrated over as the introductory scene. I used Lucio's "Body Language of Dominance" to strategically communicate nonverbal information to the audience about the scene as well as what was going on inside of my character's head. When we wrapped up day two of filming, the producer said, "You elevated the character," then turned to a family member I had brought with me and said, "He's a future academy award-winner."

Customer Service

The people enrolling for Social Power are actively improving their lives.
And I feel like we are kindred souls.Â

People who want more for themselves and their lives, and take concrete steps to have it.

And without them, this website wouldn't exist.

I always prioritize customers above anything else:

That was one of the first customers. And since then, the customer experience has only improved

Those Who Didn't Vibe With It...

ThePowerMoves.com is different than most other businesses.

One of the ways ThePowerMoves is different in by being far more open as to what happens behind the curtains.

So I'm including here also the feedback of those who didn't vibe with Social Power.

It's rare, but rarely it happens.Â

Most often someone was looking for something shorter:

Social Power can be a life-changer... *If you are willing to spend some effort*

I immediately refunded P, no questions asked.

P was not a good fit for the course, and I knew it.

Social Power is not good if you're looking for a quick fix.

Granted, this is *condensed* wisdom.

As condensed as it can be.Â

But it still requires some effort on your side.Â

Female Power

Social Power constantly improves.

The last major update was thanks to a customer called Kristina.

Kristina thought Social Power was too male-centric:

Hi Lucio,

Thank you for your reply, wish there were more female examples of power 90% of the examples were men so as a female felt alienated.

Know that there is one section that goes over woman in business that happens week 3 or 4, however it is

I am extremely grateful for Kristina's feedback.Â

This is what she went on to say:

Was hoping to see more examples of strong woman in power for the videos and how woman wield power in general as it is a resource severely lacking in the market.

Read a lot of resources such as: Secrets of Six figure woman, and break your own rules - address many psychological traps that a female has to address before even beginning to thinking about body language,

Kristina had a great point.

There **was no such resource to teach women how to strategically handle power and success while still remaining likable and feminine.**

I had to provide one.

Since then and for 5 months I did nothing but research women and power.

All of my quarantine days also all went into this project.

So I got the books she suggested. [And many more](#). I delved into the research literature for women and power, and women in the workplace.Â

And I scoured movies and YouTube for real-life examples.

The literature was great, full of wisdom to help driven women to be successful.

And I condensed all that knowledge in 3 lessons for women only. One addressing the mindsets, one addressing career strategies, and one on how to combine power and femininity.

All with practical examples and videos.

Now Social Power is the best course on the market for women who seek to combine personal success with social success.

And I will end with another public review.Â

This is what Alexander, a customer of Social Power, says of the people he has learned from:

There are quite a few sections that I could have put Lucio in this resource. But in the end, he covers how to be powerful. And he does it better than I've seen anyone else ever do it. Because [REDACTED] of that, for now, he has his own section because he's in a class of his own. [REDACTED]
